

Salary packaging and maximising your take-home pay

At LiveBetter, we partner with AccessPay to maximise the salary packaging benefit for each employee.

We recognise that every team member will have unique circumstances and financial objectives. It is important that our employees receive support from AccessPay not only in getting set up, but throughout your employment with LiveBetter so your arrangements can be reviewed as and when your circumstances change.

Included in your induction pack/email is information on salary packaging – how it works, how you can benefit and what you need to do next to get set up quickly and easily. As part of LiveBetter's commitment to staff new to our organisation, we will also have a member of the AccessPay team contact you directly to answer any questions you may have and ensure that you are set up and maximising this benefit as quickly as possible.

Depending on your circumstances, you may also wish to consult a financial advisor before taking up salary packaging.

If you want to opt-out of AccessPay contacting you to discuss your circumstances, you can do so easily by emailing humanresources@livebetter.org.au
